

Sweet William

Remembering the Way

Opening to an Authentic Loving Relationship

- ☒ It helps us to remember our way to spiritual enlightenment. In Feng Shui this essence is like a laser, releasing very precise energy to transmute negativity.
- ☒ It's particularly helpful to take this when our consciousness begins to expand and we want to move to the next level of growth. It works best in a blend with other essences.
- ☒ It helps to integrate the emotional and mental shifts required as we allow ourselves to remember ancient knowledge and divine truths.
- ☒ It works in the heart chakra and is of particular support in romantic relationships. It helps us to release our expectations of painful experiences based on past hurt so that we are less defended against an open, loving connection.
- ☒ It breaks the pattern of mulling over times when we've felt let down, so that we become open to a new reality in relationship.
- ☒ It helps us to see what our relationship really needs to thrive and to understand what is reasonable to expect of it and what is not.
- ☒ Useful Affirmation: *'I start afresh with new expectations of love and relationships that allows for authentic communication'*.

Please Note: Individual essences are not available from Spirit of Transformation, as a bespoke blend is much more powerful. If this essence resonates for you, then order a spiritually guided attunement to receive your personal essence blend, mentioning in your email that you'd like this particular essence as part of your attunement blend.
