

Organic Jade GreenZymes®

Organic body conditioning

- **Made from the juice of freshly harvested, youngest shoots of Organic barley grass**
- **A great source of naturally occurring nutrients**
- **The result of over 40 years of scientific research**
- **A complete 'salad in a glass'**

Origins

Japanese scientist Dr. Yoshihide Hagiwara devoted over 40 years of his life to finding a natural substance that would promote good health and help support the body's nutritional needs. Numerous scientific studies led him to discover the positive effects of green barley grass on human physiology.

What are Organic Jade GreenZymes®

Harvested when nutrients are at their peak in the first shoots of young barley grass, the nutrients are then cold-processed and concentrated via patented and award winning juicing and spray-drying techniques. Easily absorbed by the body, only the juice of the grass is used, as this is the richest source of nutrients.

How to use

Mix one teaspoon (3g) of powder into 100-150ml of cold, optimised PiMag® water or your favourite cold beverage. For additional nutrition, try it with Ciaga$^{V®}$ or simply sprinkle over salads. Do not add to hot liquid.

Storage

Store in a cool, dry place away from direct sunlight.

Content Box of 30 x 3g sachets, 150g Jar (50 servings)

Ingredients Organic, Kosher, 95% young barley grass, 5% Organic maltodextrin, used to prevent oxidation, thereby maintaining a fresh, natural taste.

20310 **Organic Jade GreenZymes® Sachets**

20311 **Organic Jade GreenZymes® Jar**
