

Scarlet Pimpernel

*Releases Entangled Relationships – Facilitates Kundalini Flow
Eases Grief and Fear of Rejection – Allows in Love and Power*

- ☒ When the awakened kundalini moves up the spine, Pimpernel helps it to penetrate and activate each chakra. This brings dormant spiritual knowledge and higher frequency feelings into awareness.
- ☒ This essence helps if you have difficulties with your father image or if you're a man who has trouble relating to women. It also helps anyone who finds it difficult to communicate love and affection.
- ☒ It can support personal power issues held in the Brow Chakra which mean you're uncertain of your own identity and which make it hard to integrate into society. It can help to restore a sense of self and enable you to use your initiative and demonstrate leadership qualities.
- ☒ It can help you clarify your spiritual beliefs and enable greater awareness of subconscious signals. It can help you to understand the meaning of your dreams and highlight problem areas.
- ☒ It can be a useful tool in psychotherapy, as it brings deeper awareness.
- ☒ Part of its doctrine of signature is that the delicate flowers close up at the first sign of rain. This shows that it's useful for a pattern of withdrawing under emotional stress.
- ☒ It stimulates the sacral, heart and crown chakras, replenishing creative, raw, 'earthy' sexual energies.
- ☒ It helps bring resentments into awareness, particularly when they're linked to sexual issues.
- ☒ It's useful if we're emotionally entangled and find it difficult to free ourselves even if the relationship is not nourishing us. We may be dominated by the other person and feel that our life would be empty or meaningless without them. We may also be too scared to confront the other person with the idea that we're leaving or that we want to renegotiate the relationship, knowing that they will be angry and upset. We may have been attracted to the relationship initially because it apparently offered something that we thought we needed such as love, financial security, sexual passion or spiritual enlightenment. This dependency then drains our energy and diverts us from our soul purpose, binding us in an unhealthy way. This essence helps to release us so we can choose freely whether to go or stay.
- ☒ It brings unmourned loss into awareness, allowing healing tears and it's supportive in difficult times, when we may feel alone with our sorrow or feel unable to communicate our feelings.
- ☒ It helps when we feel stuck and lethargic or when we have unrealistic expectations.
- ☒ It eases feelings of dread or feeling unwanted and opens you to love where there may have been none.
- ☒ Useful Affirmation: *'I allow the life force of the Earth to flow through me, releasing past grief. My power and passion attract authentic relationships in which I can freely express my loving nature'*
